

# Dream Catcher

**Step 1.** Gather together 3 sticks, some string and some leaves/feathers or other decorations.

**Step 2.** Place your 3 sticks into a triangle shape.

**Step 3.** Using the string tie your sticks together. This can be a bit tricky so you might need an extra pair of hands to help you out.

**Step 4.** Again using the string criss cross it between your sticks making a web.

**Step 5.** Add a looped piece of string to the top of the triangle to hang your dream catcher.

**Step 6.** Add some decorations and hang it somewhere in your house.
